

Erie Innovation District Capital Drive

BUILDING INNOVATION

The Erie Innovation District (EID) will assume control of available space across the twin and joined parcels of the YMCA building.

EID proposes furnishings and fittings consistent with a high-grade commercial space for floors 4 through 6 alongside a modernized entryway at 11th street, and a glass exterior elevator.

The Innovation Tower will offer approximately 30,000 sq. ft. for initial-phase housing of business and economic development agency tenants in a central location. It anticipates that a minimum of 10,000 sq. ft. will be for regional economic development agencies and 20,000 sq. ft. will go to established businesses keen to be co-located in the growing innovation district.

The project will also offer 6,000-10,000 sq. ft. for establishing an integration and demonstration laboratory space within the building for the purposes of customer attraction and contract engagement within the city.

All donations are tax deductible. naming rights are subject to approval by Erie Innovation District. Names will not be inscribed/designed until pledge is paid in full. Your donation will help contribute to the innovation ecosystem in our community.

Legacy Gifts

There are several Legacy Gift opportunities; each come with a specific level of recognition.

Donors at all levels will receive:

- Recognition as a member of the EID Legacy Innovation Circle and recognition in annual report
